Are you ready for a whole new level?

Then you may be ready for this exciting new challenge:
Mathematical Research with our **world-renowned faculty**.

Learn what it takes to do research while also building your **college resume**, working on **fascinating projects**, and collaborating with **exemplary peers**. Choose from three different projects, depending on location:

UT Dallas

June 4 – June 21

Geometry and Structure in Additive Combinatorics

Cornell, Session 1

July 3 – July 21

Diophantine Tuples

Cornell, Session 2

July 23 – August 10

Möbius Problem and Braun's Conjecture

Research
Program
